Subject: Microsoft Settlement.

Dear Judge Kollar-Kotelly,

The proposed Microsoft settlement is unsatisfactory in many ways. In a nutshell, the "penalty does not fit the crime". The proposed settlement does not solve for the injury done to the Java technology community or the Netscape browser market. It does not solve for the monopolistic behavior by Microsoft. Please use your power to stop the monopoly madness. Our consumer rights and security is at risk.

Sincerely,
Susan Sanguinetti
(20 year employee - high tech)
